

# Residential Dining

We are pleased to offer three unique dining hall experiences. Our flexible meal plans allow participating students the option to dine in the hall of their choice. Their convenient locations throughout campus and diverse menus makes it easy for students to plan their meals around their busy schedules. For meal plan participants, meal swipes are accepted at all Dining Halls, as well as at selected retail cafes for special meal swipe combo meals. Students with Dining Dollars may use this campus currency on any food and beverage sold in USC Hospitality retail cafés.
